

## ALBANIA

### Economy

Albania is moving steadily to a modern open-market economy. The government has been successful in curbing organized crime and reviving economic activity. The economy was bolstered by annual remittances of \$600 million from abroad, primarily from Greece and Italy, which helps offset the country's trade deficit. Textiles and clothing, food processing, lumber, cement, chemicals, and mining are the main industrial activities. Agriculture accounting for 20.21% of GDP, is being modernized with consolidation of holdings. Wheat, corn, potatoes, vegetables, fruits, sugar beet, grapes; meat and dairy products are the main agricultural commodities. Natural resources consist of petroleum, natural gas, coal, chromium, copper, timber, nickel. The government is also improving the road network across Albania and the saturated port facilities. The main exports are textiles and footwear, asphalt, metals and ores, crude oil; vegetables and fruits and tobacco; and the main imports are machinery and equipment, foodstuffs, textiles and chemicals.
