**Message from Ambassador on COVID-19 to all fellow countrymen based in  
Romania, Moldova and Albania**

This is my message to all sections of Indian Community in Romania, Moldova and Albania. COVID-19 is an unprecedented crisis requiring collective action and exceptional civic responsibility. In the present situation brought by the spread of Corona Virus, there has been a great deal of concern in the minds of everybody. Under these circumstances, I am hopeful that all of you are keeping good health and spirit and following the advice for safety from various authorities concerned. I appeal to all members to strictly adhere to the National Health and Policy Guidelines which are for our safety and for the safety of the people around us.

As you know, there is complete lock-down in India and some of you also wanted to go back to your own native places in India but could not do so because of the lock-down, which is a temporary measure. I would like to request you to please keep calm, stay put wherever you are and take all precautionary measures for your safety and others. The Embassy has shared its contact Email and telephone details widely on website and social media platforms for any queries that you may have.

My best wishes for your safety and good health.

  
(Thanglura Darlong)  
Ambassador  
30 March 2020
